## PRESS RELEASE

### *DATAIR Releases DC/Win – Scalable Administration Software for 401(k) and other Defined Contribution Plans*

#### **For immediate release**

September 28, 2005

Westmont, IL. - DATAIR announces its latest release of **DC/Win**, the next-generation Defined Contribution - 401(k) software for proposals, nondiscrimination testing and administration. **DC/Win** is for TPAs, consultants and employers of all sizes. Featuring a scalable SQL database, **DC/Win** may be run on stand alone and networked computers and will share data with other DATAIR Windows systems. DATAIR includes training, expert support and all updates with their affordable fees.

**DC/Win** features many important enhancements including flexible formats for inputting employee data, share and dollar accounting; easy-to-read report formats, a transaction database; electronic anniversary notification and data collection; and unlimited investment and source definitions. The system incorporates numerous graded class allocation formulas to accommodate cross-tested/new comparability plans.

DATAIR, founded in 1967, is a leading provider of pension and benefits administrative software. DATAIR offers systems and compliance support for Proposals, Administration, Plan Documents and government forms (5500s, 1099-Rs and 5300s). Additional **DC/Win** information and demo software, as well as details about other DATAIR software and services are available at [www.datair.com](http://www.datair.com) or by calling (888) 328-2474.
