Price-protection, pre-release special:

License our low-cost current Retirement Plan Document System today and get our soon-to-be-released GUST documents, EGTRRA amendments and next-generation Windows platform at no additional cost.

DATAIR makes document services easy and cost effective:

1. You get IRS-approved Prototypes and Volume Submitter plans, as well as Individually Designed plan capability from our highly automated software.
2. We keep our documents, software *and you* updated with the latest legislative changes.
3. We provide customer and systems support to help you generate Plan and Trust Documents, Adoption Agreements, Summary Plan Descriptions, Board Resolutions, notices, waivers, filing forms and administrative forms and procedures.
4. Reregister DATAIR Prototypes in your company's name.
